IDENTIFICATION DETAILS

Degree:	Physiotherapy		
Field of Knowledge:	Health Science		
Faculty/School:	Health Sciences		
Course:	TECHNICAL ENGLISH I		
Type:	Compulsory	ECTS credits:	3
Year:	3	Code:	2835
Teaching period:	Fifth semester		
Area:	Legislation, public health and health administration		
Module:	Specific training		
Teaching type:	Classroom-based		
Language:	English		
Total number of student study hours:	75		

Teaching staff	E-mail
Fernando Prieto Moreno	f.prieto.prof@ufv.es

SUBJECT DESCRIPTION

Equip learners with the knowledge and skills which will enable them to use the English language as a working tool in their practice as physiotherapists with foreign patients. Educating and enabling students to communicate in English within the physiotherapy sector at both a national and an international level.

Technical English I is a course, which is compulsory and which carries 3 ECTS credits, implying 75 hours of dedication on the learner's part. It is taught in the Fifth Semester of the Third Year of the Physiotherapy Degree studies. This course is embodied within the Area: Legislation, Public Health and Health Administration; Module:

Specific Training.

Technical English I forms part of a well-rounded, integral education focused on the learner in all of his or her harmoniously integrated dimensions (intelligence, will, emotional nature, sociability, abilities, skills...)

GOAL

To develop and improve the learner's overall communicative skills in English through active listening and speaking, and in particular, to increase the learner's understanding and use of vocabulary and language structure as well as reading and writing skills within this particular field of study.

PRIOR KNOWLEDGE

This course recommends a minimum B1 level of English, understanding that students have successfully completed the English Language Test Section in the Spanish State University Access Exam (PAU). (See: the Common European Framework of Reference for Languages)

COURSE SYLLABUS

UNIT 1: ANATOMY

The unit provides vocabulary related to the human body (body parts, internal organs, main muscles, bones and joints).

UNIT 2: PAIN

The students will acquire linguistic resources necessary to describe pain in English (its definition and types).

UNIT 3: SPORT INJURIES

The "Sports Injuries" unit deals with the most common injuries in sport.

UNIT 4: GIVING INSTRUCTIONS

The "Giving Instructions" unit deals with vocabulary that will enable the students to describe movement and give instructions to their future patients.

UNIT 5: MOVEMENT, POSTURE AND LIFTING

The unit deals with correct posture and avoiding injuries by correctly handling objects.

UNIT 6: CASE STUDIES

Students will analyse real cases and decide on the most appropriate and efficient therapy options.

EDUCATION ACTIVITIES

In second-language teaching-learning methodology, the how is as important as the what or even the final result.

The methodology applied in this course is therefore communicative, eclectic and collaborative. 'Communicative' implies active participation and involvement. 'Eclectic' takes into account different teaching-learning styles, allowing the student to develop and activate his/her own learning. 'Collaborative' provides the learner with the opportunity, both individually and in collaboration with others, to acquire more autonomy as well as a greater sense of responsibility for self and others. The teacher is a guide in this learning process.

This communicative, eclectic, collaborative methodology implies,

IN CLASS:

- Interactive class lectures
- Student presentations and student-led discussions
- Group and pair activities: role-plays, simulations, interviews, research, project work, online forums, etc.
- Feedback mechanisms
- Midterm and final written and/or oral exams

OUTSIDE OF CLASS:

- Independent study and preparation of class/group/pair work
- Online task completion and participation
- Individual and group tutorials
- Self-assessment

The focus of this subject is on content, knowledge and skills relevant to the chosen degree area.

DISTRIBUTION OF WORK TIME

CLASSROOM-BASED ACTIVITY	INDEPENDENT STUDY/OUT-OF-CLASSROOM ACTIVITY
30 hours	45 hours
Lectures 15h Seminars 10h Group presentations 1h Tutorials 2h Assessment 2h	Individual and team work 18h Theoretical study 20h Complementary activities 2h Completion of assignments on UFV Virtu@l and /or other multimedia platforms 5h

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To provide effective physiotherapy care, providing comprehensive care to patients.

To communicate effectively and clearly, both orally and in writing, with health system users and other professionals.

Specific skills

To be able to understand, read and write technical English in the field of healthcare.

LEARNING RESULTS

Identify basic English terms related to physiotherapy and demonstrate correct use through language exercises

Select key points and organize language in order to create oral summaries of texts related to physiotherapy.

Sustain a conversation between a physiotherapist and a patient, demonstrating interaction, mutual understanding and engagement.

Distinguish correct understanding of meaning in analytical texts on physiotherapy.

LEARNING APPRAISAL SYSTEM

PRIMARY CONTINUOUS EVALUATION SYSTEM:

ORDINARY EXAM PERIOD:

BLOCK 1: WRITTEN AND ORAL ASSESSMENT- 60%

o 20% - Oral: Individual/group presentations, debates, discussions, simulations, interviews, etc., done throughout the course. Minimum 2 evaluated tasks. To calculate an average with the written, the student must obtain an overall PASS on the oral.

o 40% - Written.

o 10% - Mid-term Exam. If a student does not sit the mid-term exam and does not present a formal excuse authorized by the Director of the Degree, he/she loses this 10%.

o 30% - Final Exam. To calculate an average with the mid-term exam and the oral, the student must obtain an overall PASS on this final written exam.

Note: Students must obtain an overall PASS (5/10) in BLOCK 1, to calculate an overall grade average with BLOCKS 2 and 3.

BLOCK 2: INDEPENDENT STUDY-WORK ASSESSMENT - 30%

o Task completion and evaluation of minimum 3 pieces of work, assigned by the teacher

o Completion of regular homework assignments

o Online task completion and participation (forums, blogs, etc.)

o Attendance to tutorials when called upon

Note: All tasks and assignments must be handed in in due time and in proper form.

Note: To calculate an overall grade average with BLOCKS 1 and 3, it is required that the student obtain an overall PASS (5/10) in BLOCK 2.

BLOCK 3: ATTENDANCE AND PARTICIPATION – 10%

o Regular attendance and active participation.

Note: Students who do not attend class on a regular basis and do not have a formal "dispensa" authorized by the Degree automatically lose this 10%.

EXTRAORDINARY EXAM PERIOD:

Within one academic period, all passed marks of different blocks will be transferred from the ordinary to the extraordinary exam period. Only those blocks failed in the ordinary period are to be repeated.

BLOCK 1: WRITTEN AND ORAL ASSESSMENT- 60%

- o 20% - Oral. If you failed the oral section, you will be required to carry out the following:
 - o One prepared task based on the course topics.
 - o An open question / interview section related to the course content, but announced at the time of the oral assessment.
- o 40% - Written. If you failed the written section, you will be required to sit one written exam based on the contents covered throughout the course.

Note: To calculate an average, students must obtain an overall PASS (5 mark) on both the oral and written parts individually.

BLOCK 2: INDEPENDENT STUDY-WORK ASSESSMENT - 30%

If you have failed block 2, you need to repeat and submit all the items specified in the ordinary exam period in due time and in proper form. You need to hand it in by the official final exam date in the extraordinary period.

Note: To calculate an overall grade average with BLOCKS 1 and 3, it is required that the student obtain an overall PASS (5/10) in BLOCK 2.

BLOCK 3: ATTENDANCE AND PARTICIPATION – 10%

- o The mark for this block will be transferred from the ordinary period to the extraordinary period.

NOTES:

1. Coursework deadlines are established at the beginning of the course. No work will be accepted after the due date.
2. Plagiarism is penalized with a FAIL grade, taking the student directly to the extraordinary exam period.
3. Students with a 'dispensa' are responsible for contacting their subject teacher within the first 5 class days of the semester and for complying with the course requirements.
4. Honorable Mention: An honorable mention is recognition of excellence. It is awarded exclusively to students who stand out from their peers academically, as well as in attitude, dedication and teamwork. This decision lies exclusively with the subject teacher.

ALTERNATIVE CONTINUOUS EVALUATION SYSTEM:

This system only applies for those students who are repeating the course, and/or who have an official 'dispensa' signed by the dean of the corresponding faculty.

ORDINARY EXAM PERIOD / EXTRAORDINARY EXAM PERIOD

BLOCK 1: WRITTEN AND ORAL ASSESSMENT- 60%

- o 20% - Oral. Two pieces are evaluated:
 - o One prepared piece of work based on the course topics.
 - o An open question / interview section related to the course content, but announced at the time of the oral assessment.
- o 40% - Written. One written exam based on the contents covered throughout the course.

Note: To calculate an average between the oral and the written, students must obtain an overall PASS (5 mark) on each part individually.

BLOCK 2: INDEPENDENT STUDY-WORK ASSESSMENT - 40%

- o Task completion and evaluation of minimum 3 pieces of work, assigned by the teacher.
- o Completion of regular homework assignments which will be handed in through the “aula virtual” or mail.
- o Online task completion and participation (forums, blogs, etc.).
- o Attendance to tutorials when called upon.

Note: All tasks and assignments must be handed in in due time and in proper form.

Note: To calculate an average grade with BLOCK 1, it is required that the student obtain an overall PASS (5/10) in BLOCK 2.
