SUBJECT DESCRIPTION

The course is found in the SOCIAL, CULTURAL AND HISTORICAL FOUNDATIONS module and part of the subject of HISTORY. It is intended to provide students with a comprehensive understanding of International Relations, based on the study of the scientific foundations and of the structures of the twentieth century and of the modern world necessary to be able to explore any aspect of international politics and analyse today's main problems, conflicts, alliances and challenges.

SKILLS

Basic / general / cross skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

To understand the key aspects of informative events in today's society in order to convey them to the public using any media platform.

To be able to convey the reality of the world and mankind, including its religious foundations, to users of media and help them understand it.

To acquire critical, analytical, synthetic, reflective, theoretical and practical thought, to be able to understand reality and convey it using the media.

To be able to generate public opinion and build bridges with the various social sectors, allowing for the formation and dissemination of a message and culture for the benefit of mankind, conveying values based on the search for truth and common good.

To be able to engage public opinion concerning cultural and informative diversity through rigorous discourse.

Specific skills

To gain an understanding of the circumstances of the world and its historical evolution, in particular, modern Spanish society, and to be familiar with its basic (anthropological, political, economic and cultural) parameters.

To nurture an attitude of intellectual curiosity and a quest for the truth, in all areas of life for the benefit of society, allowing journalism to be conducted in a more rigorous manner and with intellectual essence.

To identify and appropriately use information sources.

To be familiar with and interpret information on current affairs.

To acquire the ability to define research topics that may contribute to raise awareness of events and current affairs and to appropriately set out the findings of the research in line with the standards of the information and communication disciplines.

To forge and convey, by means of journalistic activity, attitudes of respect and dialogue with regard to other cultures and religions in the search for the truth.
