## SUBJECT DESCRIPTION

Fisiología I pretende establecer gran parte de las bases para entender cómo funciona nuestro cuerpo y cómo responden los diferentes sistemas y aparatos que lo conforman en su interacción con el contexto que lo rodea desde la radical unidad de lo orgánico y lo psíquico, atendiendo a los diferentes cambios que se producen según las necesidades de supervivencia en condiciones saludables.

## LEARNING RESULTS

To be familiar with the pathophysiology of diseases by identifying the manifestations that appear throughout the process, as well as medical and surgical treatments, mainly in relation to physiotherapy and orthopaedic aspects.

To identify anatomical structures as a knowledge basis for the subsequent establishing of dynamic relationships with the body's functional organisation.

To be familiar with the physiological and structural changes that may occur as a result of the application of physiotherapy.
