

Teaching guide

IDENTIFICATION DETAILS

Degree:	Videogame Creation and Narration		
Field of Knowledge:	Social and Legal Science		
Faculty/School:	Communication Science		
Course:	LITERARY AND AUDIOVISUAL SOURCES IN VIDEOGAMES		
Type:	Basic Training	ECTS credits:	6
Year:	1	Code:	4649
Teaching period:	First semester		
Area:	Communication		
Module:	Foundations for a Theory of Videogames		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	150		

SUBJECT DESCRIPTION

--

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

Capacity to acquire critical, analytical, synthetic, reflective, theoretical and practical thought with a view to understanding, analysing, interpreting and rigorously and independently summing up the sphere of videogames from a multidisciplinary standpoint.

Capacity to form part of a multidisciplinary group with common objectives while fostering analysis and pooling different approaches.

Ability to master information and communication technologies and to apply them in the videogame industry.

Specific skills

Capacity to understand the history and development of videogames and to identify the main trends and driving forces in interactive digital leisure.

Capacity to understand the essentials of specific videogame narrative and its expression in digital media.

Capacity to identify the main trends and creations in literature and film as manifestations of Western culture and their influence on videogames.

Capacity to understand the interactions and channels of communication established among communities of videogames players through networks and their influence on the videogame industry.

Capacity to understand the sociological context and behavioural trends of players in a global industry with a view to creating successful culture-specific works.

Capacity to develop and practice techniques that encourage creativity and the development of new ideas and concepts.

Capacity to convey cultural diversity in digital leisure media through the creation of meeting points for people or social groups from different countries and cultures.
