Language:	Spanish		
Total number of student study hours:	75		

## SUBJECT DESCRIPTION

--

## SKILLS

### Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks
---

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

### General Skills

To gauge and help to constructively solve disputes, suitably managing interpersonal relations.

### Specific skills

To be familiar with the social dimension of humankind: socialisation process and family, school, socio-cultural and historical influences; the dynamics of human groups and collectives; and fundamental social institutions from the standpoint of social inequality and cultural difference.

To use and interpret social indicators and social measurement instruments, combining different designs in research, data compilation, preparation as well as the comparison of hypotheses and interpretation of results.

To analyse the transformations and development of modern societies and their political and social movements.

To understand and value the influence of psychological characteristics, the psychosocial environment and the psychopathological and psychosociological processes linked to criminal behaviour and victimisation processes.

To analyse and select data to provide a judge with scientific knowledge of the crime charged, providing medicolegal and criminalistic explanations.

### DISTRIBUTION OF WORK TIME

CLASSROOM-BASED ACTIVITY	INDEPENDENT STUDY/OUT-OF-CLASSROOM ACTIVITY
30 hours	45 hours
