Límites y Control : Examen de las restricciones legales y los mecanismos de control y supervisión que afectan a la seguridad privada.

## SKILLS

## Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

## General Skills

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

To communicate orally and in writing within different contexts.

To research, manage sources and handle information.

## Specific skills

To analyse and assess the impact and actual effects of criminal acts and their social cost.

To assess and design a range of public policies to address crime from a legal, scientific and ethical standpoint.

To be familiar with and analyse the phenomenon of common, street crime; contemporary delinquency and new forms of criminal activity (domestic and gender-related violence, organised crime, cybercrime, terrorism, etc.), white collar crime, corporate crime, etc. Likewise, to be familiar with the various national and international responses to these criminal phenomena.
