Teaching period:	Eighth semester		
Area:	Anthropology		
Module:	Business management and human development tools		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	75		

SUBJECT DESCRIPTION

A través de la asignatura, se quiere transmitir la importancia de la Literatura para que el alumno se pregunte y dialogue sobre las grandes preguntas humanas a través de las obras de grandes escritores. De igual manera, se pretende que los alumnos disfruten de la Literatura y les permita experimentarla como una forma de expresión artística apropiada para favorecer el desarrollo integral de la persona.

El debate y el diálogo en clase permitirá al alumno profundizar en algunas cuestiones que, sin duda, serán importante en su vida futura tales como: la dicotomía amor-odio, la verdad, el prestigio, la motivación, los ideales, la integridad personal, las relaciones sociales y su propia existencia. Junto a la formación técnica conviene articular asignaturas que reflexionen sobre el concepto, pensamiento y discurso del mundo y del ser humano. Estas asignaturas proporcionan al alumno una comprensión global sobre qué y quién es el hombre, qué es la cultura y qué aportaciones originales proporciona nuestra cultura occidental en el mundo actual.

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

Ability to carry out synthetic and analytical thought.

To have developed an ability for critical and reflective thought.

To develop oral and written communication skills in a native and foreign language.

To possess a strong work ethic.

Specific skills

To be able to approach a subject by means of rigorous, profound and comprehensive thought.

To have knowledge and understanding of Western culture's most important literary creations, both past and present.

To analyse and appreciate the key ideas and content of all manner of texts; to discover the ideas, issues and messages incorporated within them and to make critical judgments about their form and content.

To identify with the university's calling.

To develop oral and written communication skills.

To nurture an attitude of intellectual curiosity and a quest for the truth in all areas of life.
