Module:	Law and its Context		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	150		

SUBJECT DESCRIPTION

The History of Thought course deals with the origin, structure and development of ideas of contemporary culture so that the students have a framework of understanding and integration for their undergraduate studies.

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying

knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

Specific skills

To assess and evaluate the various responses given by mankind to the major issues throughout history.

To critically judge the essence and content of texts and documents having a university-level complexity, as well as cultural, literary and scientific works.
