SUBJECT DESCRIPTION

Esta asignatura comprende el estudio tanto del régimen general de extranjería, como de regímenes particulares aplicables a determinados colectivos: el régimen comunitario, aplicable a los ciudadanos de la UE o del Espacio Económico Europeo; el derecho de asilo de los refugiados y el régimen aplicable a los apátridas.

Tiene una enorme trascendencia práctica, no solo por el volumen de extranjeros que se encuentran (de modo legal o irregular) en territorio español, y que precisan asesoramiento jurídico, sino principalmente porque afecta al estatuto jurídico propio de la persona como tal y no solo como trabajador, comprendiendo dicho estatuto tanto derechos como obligaciones.

El Grado en Derecho de la UFV aspira a formar juristas con un sólido respeto por la persona humana. Por ello en esta asignatura se presta especial atención a la definición de extranjero como “persona que no ostenta la nacionalidad española”, teniendo presente que la “persona” en su condición de extranjero tiene no solo una inherente dignidad, sino el derecho a la protección de la misma, lo que tiene plasmaciones concretas, por ejemplo, en el ámbito de la reagrupación familiar. No perder de vista esa dimensión personal permitirá un mejor y más completo asesoramiento jurídico al extranjero.

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To be familiar with the substantive content of legal disciplines and all supplementary fields.

To apply theoretical knowledge in the solving of problems.

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

Specific skills

To be familiar with legal concepts, institutions and relations and their foundations.

To achieve a perception of unitary nature of the legal system and the need for an interdisciplinary view of legal problems.

To apply ethical principles and values in both personal and professional life.

To show critical awareness in analysing the legal system and to be able to identify the adequacy of a law or regulation when it comes to the ideals of justice.
