| Module: | Personal and professional development | | |
| Teaching type: | Classroom-based | | |
| Language: | Spanish | | |
| Total number of student study hours: | 75 | | |

SUBJECT DESCRIPTION

Partiendo de la antropología que inspira nuestra universidad el fin que buscamos como profesores de la Universidad Francisco de Vitoria, es la búsqueda en comunidad de la verdad y el bien. A través de nuestra asignatura intentamos poner un granito de arena en esa gran playa que es la formación de futuros profesionales, en el ámbito jurídico, capaces de mejorar el entorno con su buen-hacer, aplicando en cualquier momento o situación de su vida futura nuestro lema "Vince in Bono malum" .

Para que nuestros alumnos sean "buscadores" recibirán una completa formación en todos los ámbitos de la realidad económica-financiera. En la actualidad y en el entorno en que vivimos, dichas transacciones se

desarrollan en un marco de economía de mercado con muchas variables inciertas.

La búsqueda de la verdad en las actuaciones empresariales es fundamental para que los agentes económicos puedan tomar sus decisiones de acuerdo a la información disponible y en consecuencia actuar razonablemente y con un comportamiento ético.

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To apply theoretical knowledge in the solving of problems.

Specific skills

To analyse the historical, social, economic, political, philosophical, ethical, cultural and religious context of the different legal, economic and social institutions.

To be able to approach a subject by means of rigorous, profound and comprehensive thought, with capacity for

analysis and synthesis.
