Module:	Public Law		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	75		

## SUBJECT DESCRIPTION

Entendemos por Política Criminal el conjunto de medidas y criterios de carácter jurídico, social, educativo, económico y de índole similar, establecidos por los poderes públicos para prevenir y reaccionar frente al fenómeno criminal, con el fin de mantener bajo límites tolerables los índices de criminalidad en una determinada sociedad . En consecuencia, la asignatura está orientada a comprender las áreas y métodos de trabajo de la Política Criminal ( modelos de prevención general y especial, etc) , y , desde el punto de vista criminológico, se puede considerar como una parte de la Política Jurídica y social del Estado y, a su vez, es parte de las Políticas Publicas. En consecuencia, se precisa la realización de unas determinadas medidas de lucha contra la delincuencia en función de estudios empíricos tendentes a procurar una adecuada respuesta de reacción social para llevar a cabo esta tarea. Además debemos tener en cuenta el concepto Moderno de Política Criminal y que esta no debe ubicarse en exclusiva, en el ámbito del sistema penal, sino en los espacios más amplios de la política general, sobre todo, en relación a las políticas de carácter socio-económico y cultural, porque estas conectan directa o indirectamente con

## SKILLS

### Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

### General Skills

To be familiar with the substantive content of legal disciplines and all supplementary fields.

To apply theoretical knowledge in the solving of problems.

To research, manage sources and handle information.

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

To communicate orally and in writing within different contexts, using technical language when the situation calls for it.

### Specific skills

To use constitutional principles and values to interpret the law.

To handle (legal, jurisprudential and doctrinal) law sources applicable to the matter of study.

To show critical awareness in analysing the legal system and to be able to identify the adequacy of a law or regulation when it comes to the ideals of justice.
