DESCRIPCIÓN DE LA ASIGNATURA

La presente asignatura persigue el estudio pormenorizado de todos los aspectos que engloban al estudio de la víctima (definición y tipologías) y su relación con los demás elementos de iter críminis. Desde el origen de la victimología, se abordarán conceptos y características; relaciones de la victimología con otras ciencias; el papel de la víctima en la prevención del delito y la evolución de la víctima dentro de la legislación española

COMPETENCIAS

Competencias básicas

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

To research, manage sources and handle information.

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

To learn independently.

To communicate orally and in writing within different contexts, using technical language when the situation calls for it.

To develop the areas needed to promote teamwork, adapting to new situations, being tolerant, and developing ethical behaviour and social commitment.

Competencias generales

To research, manage sources and handle information.

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

To learn independently.

To communicate orally and in writing within different contexts, using technical language when the situation calls for it.

To develop the areas needed to promote teamwork, adapting to new situations, being tolerant, and developing ethical behaviour and social commitment.

Competencias específicas

Conocer los conceptos, instituciones y relaciones jurídicas y su fundamento.

Manejar las fuentes jurídicas (legales, jurisprudenciales y doctrinales) aplicables al caso de estudio.

Desarrollar hábitos de pensamiento riguroso, ejercitando la capacidad de análisis y síntesis.

Mostrar sensibilidad hacia los derechos humanos fundamentales.
