IDENTIFICATION DETAILS

Degree:	Primary Education		
Field of Knowledge:	Arts and Humanities		
Faculty/School:	Education and Psychology		
Course:	GAMES IN PHYSICAL EDUCATION. GROUP MOTIVATION AND DYNAMICS		
Type:	Optional	ECTS credits:	6
Year:	3	Code:	7441
Teaching period:	Fifth semester		
Area:	Teaching and Learning of Physical Education		
Module:	Teaching and discipline		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	150		

SUBJECT DESCRIPTION

This course examines the initial stages of a child's motor development, and then analyses more specifically the theories and implications of playing in children's comprehensive development. We will also provide the student with specific didactic strategies for use in the classroom, group dynamics, showing the difference with games.

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general

secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To reflect on classroom practices to innovate and improve teaching activity. To acquire habits and skills for independent, cooperative learning and to foster and promote this learning process among students.

To develop analytical, synthetic, reflective, critical, theoretical and practical thought.

To develop an ability for interpersonal and intercultural communication.

To design, plan and evaluate teaching and learning processes, both individually and in cooperation with other teachers and school professionals.

To promote coexistence inside and outside the classroom, to solve discipline problems and contribute to the peaceful resolution of conflicts. To encourage and value effort, perseverance and self-discipline among students.

Specific skills

To understand the principles that contribute to cultural, personal and social education in the field of physical education.

To be familiar with the physical education syllabus.

To acquire resources to encourage participation throughout life in sports activities inside and outside school.
