SUBJECT DESCRIPTION

--

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

An ability to accomplish goals and solve problems, showing an ability to adapt to and make decisions in all manner of business management situations.

An ability to learn independently.

Specific skills

To be able to manage quantitative and computer tools for decision-making applicable to marketing and for effective presentations.

To be able to put knowledge into practice.

To be able to apply the basic principles of law affecting a company and labour relations between a company and its people.
