Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	75		

SUBJECT DESCRIPTION

--

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To be familiar with the fundamental principles of social and community psychology: individual social development, psychosocial principles of the development of human groups and psychology in social services.

To be familiar with psychological diagnosis, treatment and assessment methods in various fields applied to psychology.

To be familiar with the different fields of application of psychology and have the skills to influence and promote the quality of life and social commitment of individuals, groups, communities and organisations in the different educational, clinical and health, work and organisational, and social and community contexts.

To be familiar with the fundamentals of the social dimension of human beings.

Cross Skills

An ability to search for and select information critically and effectively.

To develop individual social skills.

Capacity for self-awareness and emotional management.

An ability to develop one's abilities, skills and knowledge according to professional standards and to keep them up-to-date.

Ethical commitment and social improvement.

An ability to adapt to new situations.

An ability to think creatively and come up with new ideas and concepts.

To show a commitment to quality in one's actions and to be able to develop systems to ensure the quality of the

services one provides.

To nurture an attitude of intellectual curiosity and a quest for the truth in all areas of life.

To be able to approach a subject by means of rigorous, profound and comprehensive thought.

To correctly engage with university work tools: text commentary, analysis, summary and the preparation of a research project.

To identify the process of personal accomplishment and the goals to be attained by organising a plan of action to this end.

To forge attitudes of respect, tolerance and dialogue with regard to other cultures and religions in the search for the truth.

To identify technical vocabulary related to various disciplines.

An ability to solve problems.

An ability to take on responsibility and make decisions.

An ability to organise and plan well.

To be able to correctly express oneself orally in Spanish and in another language, preferably English.

To be able to correctly express oneself in writing in Spanish and in another language, preferably English.

Capacity for disciplinary and interdisciplinary teamwork.

Specific skills

To be able to identify organisational and interorganisational problems and needs.

To be able to set goals for psychological practice in different contexts, proposing and negotiating objectives with patients and parties affected.

To be able to select and use appropriate psychological intervention techniques to reach individual, group-based and organisational objectives.

To be able to apply indirect intervention strategies and methods through other people: counselling, educator training and other agents.

To be able to plan the assessment of programmes and interventions and define indicators, assessment techniques and analyses of results.

To be able to prepare oral and written reports and to provide feedback for recipients appropriately and accurately.

To be familiar with private alternatives and non-profit institutions in which psychologists carry out their work:

private institutions, consulting firms, companies, private schools, etc.; their features and differences with respect to the public sector.

DISTRIBUTION OF WORK TIME

CLASSROOM-BASED ACTIVITY	INDEPENDENT STUDY/OUT-OF-CLASSROOM ACTIVITY
30 hours	45 hours
