SUBJECT DESCRIPTION

La asignatura de Prácticas en Instituciones de Investigación Biomédica supone uno de los últimos pasos que el estudiante del Grado en Biomedicina dará de cara a completar su formación. Para ello, acudirá a alguna de las instituciones con las que la Universidad tiene convenio para integrarse en un ambiente profesional real (ya sea en un contexto de trabajo experimental o de gestión y desarrollo). Así, la asignatura juega un papel fundamental en la formación del estudiante del Grado como el punto en el que confluyen los conocimientos adquiridos y las competencias trabajadas durante los siete primeros semestres del programa.

LEARNING RESULTS

Critically evaluate and use the sources of clinical and biomedical information in order to obtain, organise, interpret and communicate information from the various areas that constitute biomedicine.

Develop attitudes of social responsibility in personal performance that contribute to the shaping of a better professional in the field of biomedicine.

Understand the design of experiments on the basis of statistical criteria and the various tools available for processing data in the area of life sciences and health.
