SUBJECT DESCRIPTION

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks.
Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

General Skills

To discover, evaluate and compare the various answers regarding existential questions concerning the individual and the community with one’s own perspective.

To develop the ability to carry out informative duties as a director or press editor in any traditional or electronic media format, either as a freelancer, employee or through self-employment schemes.

To develop the ability to act as the leader of institutional communication, as the leader of communication management in an organisation or as a website manager, content editor or communication consultant.

Specific skills

To acquire the ability to use computer resources, information and communication technologies and techniques in the various combined or interactive (multimedia) platforms and systems.

To be able to use and be familiar with the technologies and systems used to process, develop and convey information, and to express and disseminate creations through various multimedia formats; in particular, graphic design and infographics.

To master and develop the practice of journalism in multimedia environments and the Internet.
