Total number of student study hours:	75		

SUBJECT DESCRIPTION

--

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To acquire critical, analytical, synthetic, reflective, theoretical and practical thought to be able to understand and express the reality of the world and man and to convey it through the media, expressing oneself orally, in writing and in audio-visual or multimedia format.

To understand the key aspects of informative events in today's society, to convey them to the public using any media platform.

To acquire the ability to consider and creatively respond to the essential questions as to the possible causes and consequences of human, social, political and economic events.

To be able to generate public opinion and build bridges with the various social sectors, allowing for the formation and dissemination of a message and culture for the benefit of mankind, conveying values based on the search for truth and common good.

Specific skills

To gain an understanding of the circumstances of the world and its historical evolution, in particular, modern Spanish society, and to be familiar with its basic parameters.

To appreciate the result of the relationship between human thought and human action in the study of Western history.

To forge and convey attitudes of respect and dialogue with regard to other cultures and religions in the search for the truth through journalism.

To acquire the ability to define research topics that may contribute to raise awareness of events and current affairs and to appropriately set out the findings of the research in line with the standards of information and communication disciplines.
