Year:	4		Code:	4690
Teaching period:	Eighth semester			
	-			
Area:	Communication			
Module:	Foundations for a Theory of Videogam	es		
Teaching type:	Classroom-based			
Language:	Spanish			
Total number of student study hours:	150			

SUBJECT DESCRIPTION

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

Capacity to form part of a multidisciplinary group with common objectives while fostering analysis and pooling different approaches.

Specific skills

Capacity to convey cultural diversity in digital leisure media through the creation of meeting points for people or social groups from different countries and cultures.
