Year:	3	Code:	6140
Teaching period:	Sixth semester		
Area:	Foundations of Criminology		
Module:	Criminology		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	150		

SUBJECT DESCRIPTION

La presente asignatura persigue el estudio pormenorizado de todos los aspectos que engloban al estudio de la víctima (definición y tipologías) y su relación con los demás elementos de iter críminis. Desde el origen de la victimología, se abordarán conceptos y características; relaciones de la victimología con otras ciencias; el papel de la víctima en la prevención del delito y la evolución de la víctima dentro de la legislación española

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To acquire an ability for analysis, synthesis, assessment and critical reasoning.

To learn autonomously.

To be familiar with and apply analytical techniques and procedures for research in problem-solving, decision-making and issue of reports concerning issues submitted for consideration in the field of criminology.

To research, manage sources and handle information.

Specific skills

To be familiar with and understand the theoretical corpus of victimology as a scientific discipline. To analyse the role of the victim in the criminal phenomenon, risk of victimisation and categories of victims.

To be familiar with the various policies for protecting and caring for victims of crimes based on an analysis of the victimisation process and its effects.
