Area:	Educational Psychology		
Module:	In-depth Exploration		
Teaching type:	Classroom-based		
Language:	Spanish		
Total number of student study hours:	75		

SUBJECT DESCRIPTION

Esta asignatura está diseñada para que los alumnos desarrollen una perspectiva que les permita reconocer el valor y el potencial de cada persona. Asimismo, se busca que los comprometa en la labor de acompañamiento que facilite el verdadero crecimiento del otro, a través de una relación de encuentro. El objetivo es que los alumnos adquieran los conocimientos, actitudes y competencias necesarias para desempeñar un rol de apoyo y orientación educativa dirigido a alumnos, familias, profesores e instituciones educativas.

SKILLS

Basic Skills

Students must have demonstrated knowledge and understanding in an area of study that is founded on general secondary education. Moreover, the area of study is typically at a level that includes certain aspects implying knowledge at the forefront of its field of study, albeit supported by advanced textbooks

Students must be able to apply their knowledge to their work or vocation in a professional manner and possess skills that can typically be demonstrated by coming up with and sustaining arguments and solving problems within their field of study

Students must have the ability to gather and interpret relevant data (usually within their field of study) in order to make judgments that include reflections on pertinent social, scientific or ethical issues

Students must be able to convey information, ideas, problems and solutions to both an expert and non-expert audience

Students must have developed the learning skills needed to undertake further study with a high degree of independence

General Skills

To be familiar with psychological diagnosis, treatment and assessment methods in various fields applied to psychology.

To be familiar with the different fields of application of psychology and have the skills to influence and promote the quality of life and social commitment of individuals, groups, communities and organisations in the different educational, clinical and health, work and organisational, and social and community contexts.

Cross Skills

An ability to search for and select information critically and effectively.

Capacity for self-awareness and emotional management.

To nurture an attitude of intellectual curiosity and a quest for the truth in all areas of life.

An ability to take on responsibility and make decisions.

An ability to organise and plan well.

To be able to use technical means such as computer programmes and audio-visual systems, among others.

Capacity for disciplinary and interdisciplinary teamwork.

Specific skills

To be able to identify organisational and interorganisational problems and needs.

To be able to select and use appropriate psychological intervention techniques to reach individual, group-based and organisational objectives.

To be able to apply indirect intervention strategies and methods through other people: counselling, educator training and other agents.

To be familiar with the public health and education system, social services, employment agencies, training services, etc. within which psychologists conduct their activities.

To be familiar with private alternatives and non-profit institutions in which psychologists carry out their work: private institutions, consulting firms, companies, private schools, etc.; their features and differences with respect to the public sector.

To be familiar with the public and private professional fields in which educational psychologists perform their work.

To be familiar with the methods of analysis, identification and intervention in the context of social systems devoted to all aspects, levels and forms of education in formal, informal, regulated and unregulated systems throughout an individual's entire life cycle.

To be familiar with the various activities specific to educational psychology: school mediation, counselling for teaching staff, family support and advice, etc., as well as their fundamental goals, working methods and working tools.
